The A,B,Cs of Riparian Corridor GMPs

Planning for Access, Biodiversity, and Carbon on Farm Riparian Corridors

DATE Thursday 28th April 2022 **TIME** 10pm - 3.30pm

TIME EcoQuest Education Foundation
1204 East Coast Road, Whakatiwai RD3 Pokeno 2473

Workshop focus

Access: help landowners understand the implications of creating or factoring in access in restoration project areas and stream corridors. Factoring in access for maintenance, pest control, and potential public access.

Biodiversity: choosing the best combination of native riparian plants to enhance habitat and water quality, sourcing plants, planting plans.

Carbon: explore the economics and potential for carbon sequestration out of riparian margin and adjacent plantings.

Schedule

10.00am	Sign in, grab a cuppa.
10.15am	Introductions and agenda.
10.30am	Dot Dalziel - Walking Access Commission and Ric Balfour NZLT on Access Planning.
11.30am	Ric Balfour - Landcare Trust on Biodiversity.
12.00pm	Sean Weaver - EKOS on Carbon sequestration options.
12.30pm	Lunch.
1.00pm	Field trip options to locate sites.
3.00pm	Back to EcoQuest and wrap up.
3.30pm	Depart.

Please RSVP to ric.balfour@landcare.org.nz any questions call Ric on 027 555 3099

Biosecurity - please arrive with clean boots to reduce the risk of spreading a disease, pest or weed.
